Airbrush refining [eye cream](#) with emu oil; available at [dremu.com](#) and by calling 1-800-373-4011; \$58.

By now, most folks have heard about the benefits of emu oil. The oil, made from the fat of the emu, a large [native bird](#) of Australia, provides an effective treatment for everything from burns and [muscle sprains](#) to [eczema](#) and arthritis.

With ingredients like emu oil, vitamin E, and [green tea](#) extract, Airbrush promises to "rehydrate skin and reduce puffiness within seven minutes." Well, it took a bit longer - more like [seven weeks](#) - before I saw a difference in the puffiness and crow's feet.

Airbrush, which Oprah raved about, is light and silky to the touch. It absorbs easily and doesn't irritate the eyes. And because it's so rich and concentrated, a little goes a long way. I'm going to keep this [big bird](#) around for a while. Emu, who knew?
