The Star in the SunDancer[®] "Curcumin"

Solid Gold's new dry dog food, SunDancer, continues to be our outstanding new product which contains curcumin. Curcumin comes from the root of the turmeric plant which comes from India. Curcumin has a 4,000 year old history of addressing a variety of health problems-internally and externally. You have tasted curcumin in mustard. It gives it the yellow color and spicy flavor. It's also put in bath water for skin irritations.

Dr. Roberta Lee, who is an expert on curcumin, talks about the praises from the World Health Organization, studying the longest living people on earth. These people live in Okinawa near Japan. Curcumin is their daily spice, they chew the leaves like gum. The National Library of Medicine cites 1,491 studies on curcumin as of Jan. 2006, for its potential healing powers that include a variety of problems (prostate cancer, reduction of tumors, clearing malaria viruses, lowering cholesterol, Alzheimer's, etc). Dr. Lee is a graduate of the Integrate Medicine Fellowship Program at the Andrew Weil, M.D., University Of Arizona School Of Medicine.

Now you know why Solid Gold includes curcumin in its new dry dog food. SunDancer is available in 4 lb., 15 lb. and 33 lb. hermetically sealed vacuum-packed bags. We do not recommend emptying out the contents into another container. The act of pouring exposes the food to air. Open the bag take out what you need and close it using a bag clip or clothes pins. The bags are 95% sealed after that. During shipping, the bags on the top jiggle and press down on the top of the stack. The one way valve lets the air escape out and helps to keep the food fresh longer. The contents are good for a year in the vacuumed environment. We do not use animal/chicken fat which can go rancid. We do not use chemical preservatives and SunDancer contains **NO GRAINS OR GLUTEN.**

In 1958, the US Congress was so impressed by the healing properties of curcumin for cancer that they wanted to fund a study. The pharmaceutical companies objected and lobbied against it. They said it would cut into the revenue of their cancer drugs. One company said that if the curcumin were that effective, they would synthesize it and make it into a prescription drug. All research on cancer and curcumin was stopped.

In 1971, President Nixon tried to bring back the curcumin/cancer research. But Watergate stopped that.

The owner of Solid Gold has been raising Great Danes for 50 years. She has a black Dane mix that is 17 years old. The dog's muzzle was completely gray. However, after six months on SunDancer, all the gray went away and the black hairs came back.

Other incidental improvements cleared up - tear stains, ear infections, chewing at the feet and bladder stones. Dogs with epilepsy and diabetes also improved. Some dog foods reduced their big bags to 28 lb., Solid Gold is still a full 33 lb. bag.
